Eagle *PCB Consulting*

Information:

Many companies find that they are just too busy or are in a critical time crunch in order to finish their design tasks. This is where I can help you. I am offering many contract services for Eagle users and maybe I can help you. Some of the consulting I perform is:

Circuit Design
PCB Design
Eagle Training
Custom Library Creation
Technical Support

Please let me know how I can help you and my pricing fits any company budget. If you would like further information send back the form below or call for more information.
